5 Quarters Back to Back

BROKERS NOTES:

This story started at a barn dance in rural South Dakota in 1952, between Wessington and Zell. This is where the bold Robert (Bob) Stephens tapped another fellow on the shoulder and stepped in to dance with Miss Willowdean Fallon. This was their first of many dances.

A long history brought them to this point in their lives. Bob's folks, Earl & Ella Mae, farmed near Piedmont and then Kadoka for years. Ella Mae took a teaching job in Wessington, so the family moved and started farming there. In 1951, Bob returned home from serving our great nation as a cook in the Korean war.

Willowdean grew up in the Burdette/Zell area with her brother Wilbert, who farmed with their folks, Jim & Marian Fallon. Willowdean graduated from Notre Dame Jr Academy in Mitchell SD in 1951. Wilbur took over the family farm while Willowdean inherited a quarter of ground from her folks.

Bob, a strapping young man with a love for farming, was enamored by a pretty gal named Willowdean. They were wed in 1952. Bob then attended South Dakota State University in Brookings SD for two years to learn more about agriculture; however, the need for more income led him back to work on the farm. They lived and farmed this land until ultimately purchasing it in 1960 from William & Helen Swaney. That same year, with five children, they moved to Rapid City. The decision was difficult, but the need to move to the big city to find support services for their oldest child became a priority.

Bob was then able to gain a job at the United States Postal Service until retirement. Bob & Willowdean with their now six children would make their way back to visit numerous family members and enjoy a good pheasant hunt on the farm quite often through these years.

Stephen's maintained a good relationship with their long-term tenant of 40 plus years; furthermore, this land has only seen two tenants since 1960 due to quality all the way around. They have since improved the land by removing the old acreage site, trees, outbuildings and fencing, providing for a turn-key farm today.

With over 435 acres of Class II soils ranked from 81% to 91%, this contiguous farm is located in the honey hole of Hand County, nine miles straight north of Vayland. Easily access this land on the west from 191st St / 368 Ave or from the east on 190th St / 369 Ave, northeast of Miller. The land has a gentle slope with 0-6%, 651.9 cropland acres and 499 base acres. This farm is currently enrolled in ARC-CO for corn & soybeans and PLC for wheat & sunflowers with a 114.62 acre corn base with 113bu yield, a 221.21 acre soybean base with 34bu yield, a 150.3 acre wheat base with 48bu yield and a 12.87 acre sunflower base with 1127lb yield.

A waterfowl management rights easement covers the land with wetlands located throughout, as well as Little Turtle Creek flowing through the southern portion of this farm. Once the protected wetlands are determined by the USFWS, one could get a Certified Wetland Determination and potentially install drain tile as there are convenient outlets available on the land. This is a known area for the outdoor enthusiast in which sportsmen from all across our nation come and enjoy the fields of plenty. Waterfowl, pheasant and whitetail deer hunting offer unique South Dakota recreational experiences. With the slough, Little Turtle Creek, and other drainages present, one can see the avenues attracting wildlife of all kinds.

If you have been looking for a quality farm land investment with recreational attributes, take Advantage of this generous offering in Hand County, South Dakota, from the legacy of Bob and Willowdean.
