

Sale Name: Seed Testing Research Foundation - 14th Annual Silent Auction

LOT 21 - Ryegrass Whiskey

Description

Yes, you read that correctly. RYEGRASS WHISKEY. This is whiskey made from ryegrass, the plant grown for turf and forage in Oregon's Willamette Valley, the ryegrass capitol of the world. The flavor profile is earthy and yes, sort of grassy. The whiskey itself is put into a 30 gallon charred American Oak barrel and after a year, is moved to an old barrel to mellow. Today is the day to bid on and win yourself some ryegrass whiskey!

Quantity: 1
